OBJECTIVE

Frontend-focused Software Engineer with 4+ years of experience building responsive, high-performance web applications. Skilled in React, Next.js, and modern styling systems (Tailwind, Styled Components), with a strong eye for UI/UX and accessibility. Experienced in testing, performance tuning, and CI/CD automation to deliver polished user experiences quickly and reliably.

EXPERIENCE

Freelancing, Remote   Jan 2021 - Present
Frontend / Full-Stack Developer (Contract)

- Delivered modern **React and Next.js frontends** for e-commerce, fintech, and SaaS clients.

- Translated Figma designs into responsive, accessible UI with Tailwind CSS and Styled Components.

- Optimized Lighthouse scores by improving bundle size and caching strategies.

- Collaborated directly with clients on UI/UX reviews, ensuring smooth handoff and user acceptance.

- Integrated REST and GraphQL APIs with secure authentication.

- Automated deployments with GitHub Actions and Docker, enabling faster feature rollouts.

HNG Virtual Program, Remote   July 2024
Frontend Developer (Internship Program)

- Built a **Next.js demo app** with code splitting and caching, scoring **95% in Lighthouse performance**.

- Developed reusable React components with clean architecture and strong test coverage (90%+).

- Configured CI/CD pipelines for **live previews and automated deployments**, reducing feedback loops by 60%.

- Participated in code reviews, debugging, and agile sprints under tight deadlines.

EDUCATION

Lagos State Polytechnic (LASPOTECH), Ikorodu, Lagos   Graduated 2021
National Diploma (OND), Computer Engineering

SKILLS

- **Frontend Development** – React (hooks, context, component architecture), Next.js (SSR/ISR, code splitting, caching), Angular SPAs, performance optimization, accessibility & responsive design.

- **Styling & UI** – Tailwind CSS, CSS Modules, SASS, Styled Components, Figma-to-code implementation, design systems.
- **Testing & Quality** – Jest, React Testing Library, Cypress (E2E), Postman, strong TDD habits.
- **State & Data Management** – Redux, React Query, Context API, API integration (REST/GraphQL).
- **Tooling & Workflow** – Git/GitHub, GitHub Actions (CI/CD for frontend), Docker (for local dev), agile collaboration.
